

JEAN GLOIRE ISHIMWE

Full Stack Developer | UI&UX Designer

Rabat, Morocco | ishimwejeangloire@gmail.com | (+212) 6254060807 | [LinkedIn](#) | [Github](#)

ABOUT ME

I am a passionate and versatile Full Stack Developer and UI/UX Designer with a strong foundation in modern web technologies and a keen eye for user-centered design. Experienced in building responsive, scalable, and secure web applications from concept to deployment. Thrive in collaborative environments and enjoy solving complex problems with clean, efficient code. Always eager to learn new technologies and take on challenging projects.

SKILLS

- **Front End Development:** React.js, Tailwind Css, Next.js, HTML, CSS, Javascript, Vue.js, Figma
- **Back End Development:** Nodejs, Express.js, Nest.js, GraphQL & RESTful APIs, Python(Django)
- **Databases:** MongoDB, PostgreSQL, MySQL, SQL
- **Version Control:** Git, Github, Bitbucket, GitLab
- **Tools & Technologies:** Redux, Pusher, JWT, Stripe, Socket.io, Webpack, Docker etc...
- **Design & Prototyping Tools:** Figma, Adobe XD, InVision, Canva
- **Project Management Tools:** Slack, Trello, ClickUp, Asana ect...

EXPERIENCES

KLAB RWANDA | *Full Stack Developer*

Kigali, Rwanda | **Sept 2023 - Aug 2024**

- Designed and developed full stack web applications using Node.js, Express.js, React.js, and MongoDB.
- Worked on several real-world projects, including a featured **Holiday Planner** platform.
- Key contributions and features of the **Holiday Planner** project:
 - Implemented user authentication and authorization using JWT and bcrypt for secure login and role management (admin/user).
 - Developed a tour booking system allowing users to browse, book, and pay for tours online.
 - Added tour search and filtering based on destination, price, duration, etc.
 - Integrated payment gateway (Stripe) for secure transactions.
 - Used MongoDB for database storage and Mongoose for data modeling.
- Followed RESTful API principles and maintained clean, reusable code.
- Collaborated in an agile team environment, participating in code reviews and sprint planning.

FREELANCER | *Full Stack Developer*

Kigali, Rwanda | **Feb 2024 - Present**

UPWORK

- Delivered full stack web solutions for international clients using Node.js, Express.js, React.js, and MongoDB.
- Developed secure user authentication systems using JWT and session-based login flows.
- Created responsive front ends with React, applying best practices in UI/UX design.
- Set up RESTful APIs for communication between frontend and backend systems.
- Integrated third-party APIs (payment gateways) to enhance app functionality.

EDUCATION

UM6P

Bachelor's of science, in SASE

Rabat, Morocco | **Nov 2025 - Present**

INES RUHENGARI UNIVERSITY

Bachelor's of science, Computer Science

Musanze, Rwanda | **Sept 2024 - Sept 2025**

Cumulative **GPA**: 3.50/4.0

GROUPE SCOLAIRE NOTRE DAME DE LA PAIX CYANIKA

High School Diploma, Software Development

Rwanda | **Jan 2020 - Aug 2023**

PROFESSIONAL DEVELOPMENTS

Javascript Algorithms and Data Structures | *FreeCodeCamp*

Certificate issued: **Nov 2024**
